

**yatsan**<sup>®</sup>  
a fine day starts after a restful night

2013

## the Rightful Honour of being Unique

YATSAN, who started their production process in 1974, which they define with their slogan '**a good day starts with a good night**', has approximately 150 locations in Turkey today as well as being the preferred brand for thousands of consumers in 40 countries worldwide.

It is possible to summarize the driving force behind such a huge success with one word: **Perfectionism**.

In other words, the effort made to become perfect.

It has always been a brand that directs, changes, and transforms the culture of sleeping at all times and under any circumstance during the production process that races against time from the most complex models you can think of, to the textiles that are the hardest to obtain, and labour that requires the most qualified skills.

## the Place Where Everything Started

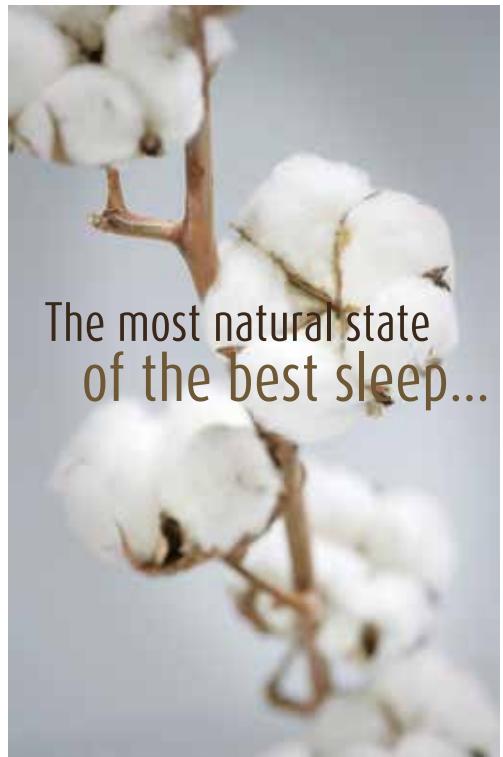

Everything started with our desire for people to experience a more comfortable and quality sleeping experience in the mattress industry.

In order to achieve our objective we invested in technology and human resources: we established one of the few production centres of the industry in Turkey with a facility covering 60.000 m<sup>2</sup>.

While keeping up to date with the latest inventions and novelties, we did not forget to share the fruit of our R&D department with the rest of the world.

Thanks to contractual products produced for international brands and the fact that the majority of our products are exported to 40 different countries, we have become a brand preferred by ten thousands of consumers worldwide.

Today the brand **YATSAN** makes its mark in the industry with its wide range of products; spring mattresses with different characteristics, mattresses made from visco-elastic materials with no springs, latex mattresses, specially designed mattress headboards, designer mattresses for yachts, and water mattresses.

## High Quality Standards from the Inventor of Many 'Firsts' and the 'Bests'

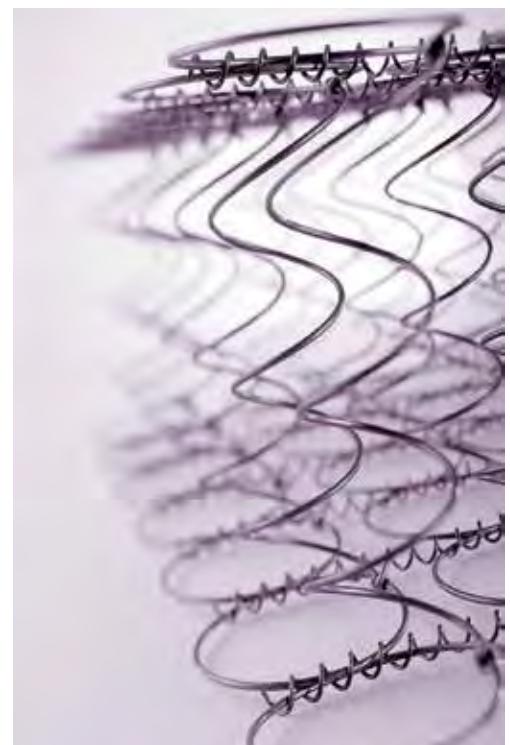

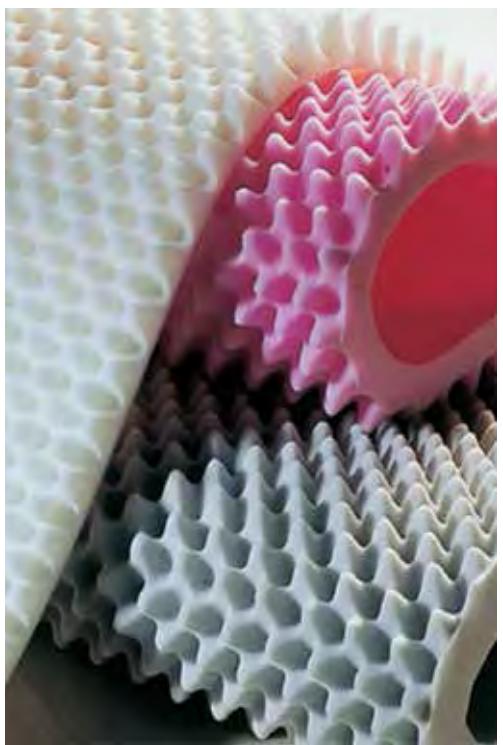

The production philosophy of YATSAN, who continues to grow by constantly updating itself, grows based on two fundamentals.

These two fundamental rules are establishing new standards by constantly exceeding expectations and aiming for top quality in every task.

YATSAN, who offer consumers and corporate clients service within this context in both national and international retail and contractual markets, offers a wide range of products thanks to the 'custom design' solutions.

Today an extremely broad range of products comprised of spring mattresses with different characteristics, mattresses made from visco-elastic materials with no springs, latex mattresses, specially designed mattress headboards and bedroom suites, designer mattresses for yachts, mattress bases, and mattresses made from natural materials are sold worldwide under the name of YATSAN.

The reason is simply because she must either make the best or make the first...

## the Difference of Producing with Feel...

An important part of YATSAN's production process still lies in the skilled hands of qualified experts, regardless of the fact that advanced technology is preferred during production.

Each product that is part of YATSAN's luxury mattress collection is always approved by a head expert.

Skilled eyes and hands always check all components and installation elements of the products to offer the consumer the quality they are promised.

The reason being that production based on feeling and touching is an essential brand value for YATSAN.

**yatsan®  
çocuk**

They are only children!

They must 'sleep and grow' in order to develop, learn, and improve their memory skills.

We have combined the physical and mental conditions of children with our experience.

We have developed JOUJOU, MON AMI, FUNNY, and PUZZLE especially for children, which absorb sweat fast, take the shape of the body in every sleeping position, and are in-sync with regular hormone secretion.

We did not stop at just mattresses, but developed visco and latex options in order to offer them uninterrupted sleep and ensure healthy development.

WE MAKE  
THE WORLD'S  
BEST MATTRESS.<sup>TM</sup>

One of the biggest honours for us was the fact that SERTA, the brand that changed sleeping habits, chose us to be their licensed manufacturer in Turkey.

SERTA, established in the U.S.A. 75 years ago, has changed the sleeping habits of millions since the day it was incorporated.

The vision to use natural materials, the advanced technology 'Mira-Coil' spring systems, and unique designs designate the slogan for SERTA, who produce the world's best beds, 'we make the world's best mattress'.

We believe that the reason why SERTA granted YATSAN the authority of becoming their licensed manufacturer in Turkey, a collaboration based on trust, is due to our vision of manufacturing mattresses.

SERTA has extended its licence agreement with YATSAN to 13 countries.

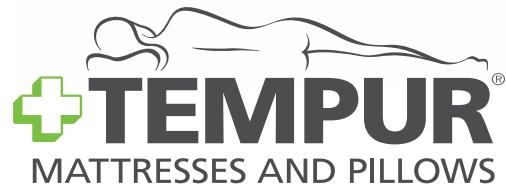

By General agreement dated 1 October 2009 and sole agreements of 13 countries dated 20 December 2011 SERTA and YATSAN have concluded a kind of civil contract for 5+5 years.

The First SERTA-YATSAN store was opened in Casablanca, Morocco in September 2011. Second store opened in Bremen, Germany in June 2012. With Corner stores 12 in Romania, 6 in Slovenia and Croatia, SERTA brand continues branding with full speed.

Our objective is to represent the brand SERTA with a great passion and the care it deserves both in our sales in Turkey and the products we export overseas.

Today, SERTA has become the fastest growing luxury mattress brand in Turkey.

Never underrate a mattress.

Today, TEMPUR, who has proved their brand and products to the world, offer a unique and inimitable sleeping experience to the world thanks to a very special technology used by astronauts of NASA.

Forget everything you know about mattresses.

Today, TEMPUR has made a breakthrough on the subject of healthy sleep thanks to advanced technology. As opposed to a hard or soft mattress for a good night's sleep, TEMPUR argue that the mattress must be hard and soft in places where it should be in order to facilitate the needs of the body, and offers a truly unique sleeping experience by genuinely ensuring special comfort.

On 10 May 2010 TEMPUR-World decided to distribute their goods via YATSAN, which is yet again proof of our outstanding success. Thus, YATSAN adds to its success with this unique brand.

producing mattresses since 1898

### The result of a hundred years of experience: Quality

KING KOIL has been providing high quality at a very affordable price to its customers all over the world, particularly the USA since 1898.

Comfort, substantiality and value have become the foremost specific features of the brand KING KOIL as every mattress is designed, planned and produced by the most competent hands. Uniting the consciousness of 'healthy mattress' with design, the quality of KING KOIL is being the choice of our customers.

### The contribution of technology to health: A perfect mattress

A good mattress experience, revealed the science of mattress including the startling technological developments throughout the recent years. This science provides a perfect mattress experience to you by combining an unexceptionable mastership with a spectacular design. We, as KING KOIL, are combining our experience of mastery of a hundred years with numerous technological materials and we offer you an opportunity of passing the one third of your life with visco elastic smart mattress, small pocket springs located individually and materials like multi spring, horse hair, cotton and wool.

### Your health is in your mattress

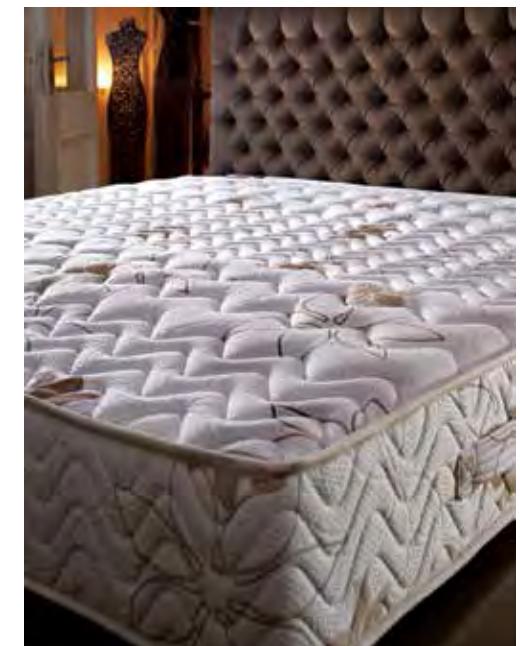

KING KOIL aims to offer a good and a healthy mattress experience.

This aim has resulted in thousands of pleased customers.

Your mattress where you spend one third of your life is the first step to start a healthy day.

### ... and the place where experience meets mastership: YATSAN

YATSAN who has committed to a more comfortable and a more qualified mattress experience for 35 years, is one of the few mattress producers having a production licence all over the world for KING KOIL products which is an international brand. By Turkey production license of KING KOIL, producing KING KOIL branded and licensed customized products to other license holder countries (Germany, Greece, Czech Republic, etc.). Combining contemporary manufacturing technologies with an approach of boutique production YATSAN achieves successfully the complete customer satisfaction pursuing the conception of perfect mattress in KING KOIL products as well.

Since 1881

A journey that began in 1881 in the town of SEALY, Texas, when Daniel Haynes, cotton gin builder, filled a request for a cotton-filled mattress. And then another. His business grew exponentially, which led to more innovations and several patents. Among them, a machine that compressed cotton.

Fifteen years later, Haynes sold his patents to a Texas Company that retained the Sealy handle. Soon after, ad exec Earl Edwards penned the slogan 'Sleeping on a Sealy is like sleeping on a cloud.' And with that, SEALY mattresses were a national phenomenon. By 1920, SEALY had 23 licensed plants in many regions.

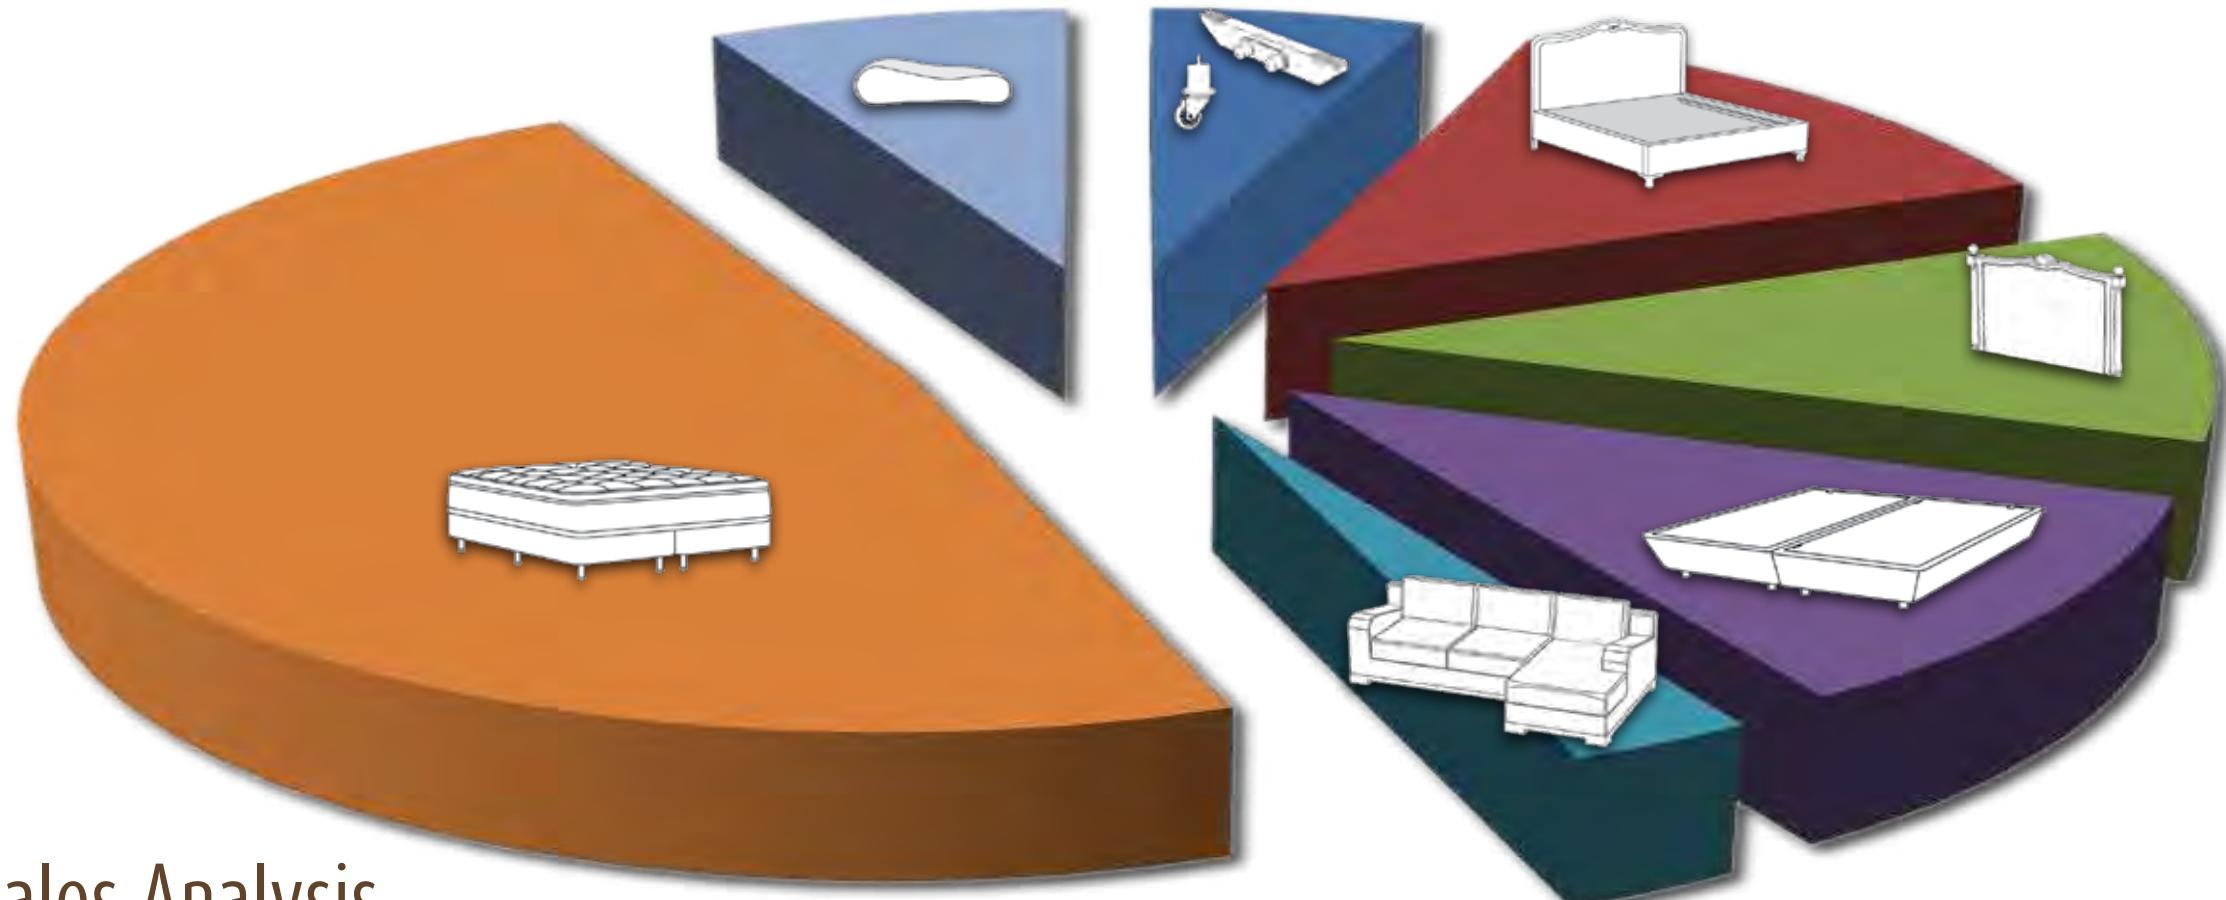

This growth and renewal carried on with each passing day and for the purpose of creating healthier sleeping environments, it made the way of initiating the production of latex beds.

Today the company owns and operates 25 bedding plants in the U.S. Three are dedicated to innerspring and foundation component parts and one is dedicated to producing its very own latex—another first in the mattress industry. SEALY brand products have become prominent as from November 2012 by the Turkey distributor of YATSAN, in sleeping sector.

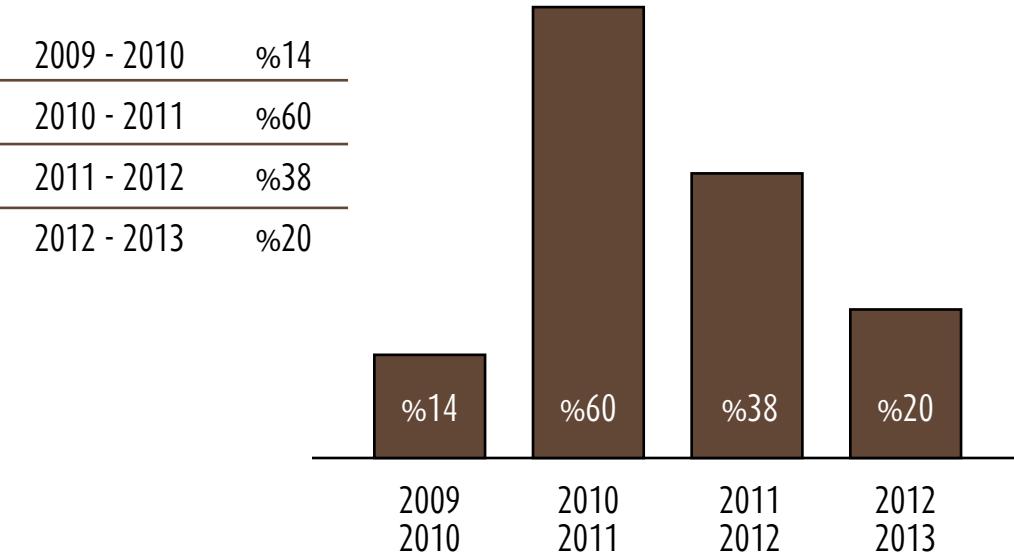

Note: The percentages stated above are calculated based on sale value, not quantity.
